During this period of time a new panel will be run to appoint a principal for a 5 year term. Congratulations to Mr. Nesbit.

### SCI FI WORLD INCURSION 'ICE VS FIRE' SCIENCE REVIEW

We thought the Science performance was extremely captivating because she used special chemicals to change the colour of the fire. She also made a fire tornado. She froze an orange under 5 seconds with liquid nitrogen then smashed it with a sledge hammer. We learnt about how liquid nitrogen can boil even though it is -200 degrees. In conclusion we thought the performance was absolutely amazing and would love to see it again. We recommend everyone should see this performance as it is very entertaining and educational.
